

Our Student Success Plan

Student success is more than academics. It is defined as a holistic sense of fulfillment which prioritises student development, personal growth and progress towards a student's individual goals. It is achieved by promoting a learning environment which meets the needs of students, fosters their various interests, and creates equitable opportunities for all student groups of diverse backgrounds. This further encourages students' success in their personal and academic careers, in collaboration with the College community.

Student Centered Community

To be a supportive community, students are to be empowered in the management of their individualised learning and to turn their ideas into reality.

- Orientation 1.1** - Increase our knowledge/comprehension of our evolving student population.
- Orientation 1.2** - Enhance Student Engagement² inside and outside the classroom.
- Orientation 1.3** - Provide opportunities and support for achieving academic success.
- Orientation 1.4** - Offer graduates opportunities to further their development after completing their program.

Accessibility and Equity

To strive for an inclusive college environment that is universally designed and responsive to our students' needs, based on their input and feedback.

- Orientation 2.1** - Adopt a needs-based approach.
- Orientation 2.2** - Consider curriculum design and content that emphasizes EDI.
- Orientation 2.3** - Reduce unnecessary barriers.
- Orientation 2.4** - Support the transition to university and/or careers.

Healthy, Effective and Supportive Environment

To create a stimulating environment aligned with the College's values: lifelong learning, excellence, caring, collaboration, stewardship and a sense of community and tradition.

- Orientation 3.1** - Assure a modern and effective learning environment.
- Orientation 3.2** - Assure an inclusive setting.
- Orientation 3.3** - Build relationships with all College stakeholders.
- Orientation 3.4** - Promote a healthy lifestyle.

Excellence in Teaching, Learning and Leadership

To promote an environment where new approaches of teaching and learning are encouraged to enhance learning outcomes.

- Orientation 4.1** - Provide opportunities to develop professional skills and attitudes.
- Orientation 4.2** - Promote collaboration/communication across all Services/Departments.
- Orientation 4.3** - Develop culturally relevant curriculum.
- Orientation 4.4** - Promote and share high impact practices.

Transformation through Innovation

Continually enhance our academic programs, facilities, student spaces, and campus technologies to become more effective and efficient at supporting student engagement, learning, and progress toward the student's own goals.

- Orientation 5.1** - Demonstrate evidenced-based college practices and processes.
- Orientation 5.2** - Seek student input.
- Orientation 5.3** - Adopt innovation.
